

## Vibemac at Clothing Machinery Show 2012 High Interest Shown in Automatic Sewing of Jeans

Mr. Temel Kamiloglu of Ugur Makina, Vibemac's sales agent in Turkey said, "Turkish market is and will be hopeful in our sales to sewing industry. Many sewing factories are concerned with new projects in Anatolia and will become busy due to orders related to the new projects from this summer." He continued, "So, Ugur's sales in this year are expected to be 25 to 30% larger than in 2011. Turkey has all the elements to complete a sewing industry and besides, a rich experience. In sewing for export to Europe, Turkey is at the best geographical position. At this Tuyap show, visitors from neighboring countries such as Iran were conspicuous as well as domestic visitors. Therefore, this show can be positioned as an international show. Every day during the show session, visitors

showed a high interest in a variety of automatic jeans sewing machines made by Vibemac."

Turkish jeans sewing industry has maintained an active status. Each jeans sewing factory in this country is busy operating at the full capacity. In addition, Turkish sewing companies are expanding their business globally, for example, commencing new sewing business in Egypt, Bangladesh, etc.
